2.5 Offshoring of services	19
Section 3 Sources of statistics for international trade in services	20
3.1 UK and international trade in services	20
3.2 Financial services liberalisation	20

FOREWORD

IFSL has accessed a wide range of sources in the process of researching many aspects of the financial sector and related professional services. This Guide, which is updated every year, lists sources of financial services statistics mostly found on the internet. Where possible we have included a direct website link to the source. Each section in this Guide refers to a separate IFSL report which can be downloaded free of charge from <http://www.ifsl.org.uk/research>. Data files for IFSL reports and selected time series can also be downloaded from <http://www.ifsl.org.uk/research/statistics.cfm>.

Key areas of IFSL research include:

- Fifteen sector reports in the City Business Series
- Six reports highlighting UK expertise in financial and professional services
- Reports reviewing the impact of liberalising trade in services
- Other regular reports including International Financial Markets in the UK, UK Financial Sector Net Exports, World Invisible Trade and City Indicators Bulletin.

IFSL

IFSL is a private sector organisation, with nearly 40 years experience of successfully promoting the UK-based financial services industry throughout the world. IFSL's research informs by increasing awareness of the UK's role in international financial markets and by highlighting the major contribution of financial services to the UK economy.

Further information on statistics and publications can be obtained from:
